## NATIONAL SERVICE SCHEME (NSS)

### BIRD FEEDING INITIATIVE

**Date:**03.03.2025

**Venue:** AB3

**Subject:** Bird Feeding Initiative

NSS volunteers took a significant and meaningful step towards bird conservation by organizing the first spell of bird feeding. This initiative aimed to provide much-needed relief to birds, especially during the scorching heat and dry conditions when natural water sources become scarce.

Birds contribute to seed dispersal, pest control, and pollination, all of which are essential for a thriving environment. By ensuring their well-being, we indirectly support the health of ecosystems and biodiversity.

The event emphasized coexistence and responsibility, showing that small acts of kindness—like providing clean water to birds—can significantly impact the natural world.

As part of this thoughtful initiative, water pots have been strategically placed at key locations within AB3 to ensure birds have access to fresh drinking water:

1. Near cycle parking
2. Near the small bridge near AB3
3. Two Pots along the path leading to IT Canteen
4. Near the Buddha Statue
5. Near the Anti-Ragging Banner
6. Two Pots near Staff 2-Wheeler Parking
