Central Library is proud to be one of the best libraries in India with a carpet area of 81,000 sq feet. Library is a knowledge repository with its wide selection of books, periodicals, journals-both Indian and international, audiovideo material and electronic databases. Adoption of modern IT tools has enabled the Central Library to leapfrog into the big league in a short span of time.

National Digital Library of India (NDLI) is a virtual repository of learning resources which is not just a repository with search/browse facilities but provides a host of services for the learner community. It is sponsored and mentored by the Ministry of Education, Government of India, through its National Mission on Education through Information and Communication Technology (NMEICT). Filtered and federated searching is employed to facilitate focused searching so that learners can find the right resource with the least effort and in minimum time. NDLI provides user group-specific services such as Examination Preparatory for School and College students and job aspirants. Services for Researchers and general learners are also provided. NDLI is designed to hold the content of any language and provides interface support for the 10 most widely used Indian languages. It is built to provide support for all academic levels including researchers and life-long learners, all disciplines, all popular forms of access devices and differently-abled learners. It is designed to enable people to learn and prepare from best practices from all over the world and to facilitate researchers to perform inter-linked exploration from multiple sources. It is developed, operated and maintained from Indian Institute of Technology Kharagpur.

All interested students, faculty members and employees of Amrita Vishwa Vidyapeetham can now enroll themselves as members of Amrita Vishwa Vidyapeetham NDLI Club.
