## THE 75<sup>th</sup> INDEPENDENCE DAY REPORT

### Flag Hoisting and Independence Day Speech by Dr. Joshi C Haran

The land makes us to lead a life of our choice. India is not an ordinary nation. India is a nation with lots of differences. India is the only country in the whole world where you can see the diversity.

You can see the man with the darkest skin colour, the fairest skin colour but they all feel that they are Indians. And this feeling not like that, even in early days, India was a United Nation, though we had so many kingdoms, they all lived together in harmony, except for the few, probably that literally cannot be avoided. And we should today rededicate ourselves to build this India to its original glory. India itself was a very glorious country, we know, from our history. The invaders who came to India, instead of learning from India destroyed the knowledge which is already there. It's told that the library of "Dhakshasheela" burned for three months and thus how the knowledge

system was destroyed. Even later, we know, in India, we had extremely skilled people to recover and bring back the glory.

From there, we learned multiplication which is adding so many times. So it goes systematically. Whereas Indian Knowledge is totally different. The Indian Knowledge, of course, we normally blame the way which is saying they didn't give the knowledge to the younger generation and go.

A Snap Shot during his Independence Day Address

So when we say we are doing this for an offering to God, what the mind tells us is that, I should do this job with complete perfection. So once we all change into doing things with perfection, this country without doubt will reach its glory. The second prayer which I would also like to give you is

\*प्रजहातियदाकामान्सर्वान्पार्थमनोगतान्।\*

\*आत्मन्येवात्मनातुष्टःस्थितप्रज्ञस्तदोच्यते॥2.55॥\*

to hate is human and to forgive is divine. So having done a day's job with many mistakes in the way we need to seek forgiveness from the lord.

This discovery of going deep into meditation and they are receiving the knowledge is a purely Indian concept, where all the knowledge was gained. To

this the slow revival of this great tradition of religion and so on. Many of them have come down amidst including our chancellor Mata Amritanandamayi Devi. She is ready to show the way, but we are not willing to go.

One King was ordered a weaver to weave a saree to his queen. That particular artist's hand was cut off. So he will not again weave clothes like that. This is the tragedy which was happened to us. and this is how, from where we should really have awakened and bring back those skills and so on which we really had. In Bagavath Gita, it says, was it attained by your own effort not at the physical level but at the higher level at the mind says

\*कायेन वाचा मनसेन्द्रियैर्वा बुद्ध्यात्मना वा प्रकृतेः स्वभावात्।\*

\*करोमि यद्यत् सकलं परस्मै नारायणायेति समर्पयामि॥\*
