

Standard Operating Procedure for vendors/technicians/courier

1. The name of the vendor/technician and other details should be informed to the security staff well in advance.
2. Once the person arrives in the security gate, his/her vehicle will be sanitized by our security staff
3. The technician/vendor should wear mask at all times
4. The security staff should ensure that the person has installed AarogyaSetu App and is in the low risk status
5. The technician/vendor should clean his hands using the sanitizer, wash his hands using soap oil in the main gate
6. The technician/vendor will be screened using a non-contact thermometer/thermal scanner. If his body temperature is above 98.6 degree Fahrenheit, he/she along with his accompanied technician/vendors will be denied entry into the campus
7. Kindly ensure that the work does not prolong for more than 60 minutes.
8. Technician/vendors from red zones will not be permitted until further orders.
9. Persons coming for delivery of parcel/courier may be permitted to wait in the main gate. The residents can come to the main gate and collect the item.
