18/12/2019	A Talk on Environmental Conservation by Mr K Kalidasan, President, OSAI Environmental Organisation, Tamil Nadu.	Acharya Hall, Academic Block - 1, Amrita School of Engineering, Ettimadai, Coimbatore-64112

A Talk was organized by Dr Poongothai of the NSS Amrita Chapter, on the conservation of environment. The invited talk was given by Mr K Kalidasan, President, OSAI Environmental Organisation, Tamil Nadu.

Unfortunately we are living in a world where we seem to be least worried about our environment. A talk like this was an eye-opener which made us aware of the fact that we know the names of the flora and fauna across the globe, but we do not know the names of very common birds and animals from our neighbourhood.

Around 100 students from all units participated in the event and benefitted from the talk given at Acharya Hall from 2:00 p.m. to 4:30 p.m. on the 18th of December, 2019. All the Programme Officers and their teams of students were present on the occasion.

An NSS Volunteer introducing the speaker for the day

The session made lively by audio-visual presentation

NSS Volunteers engrossed in the presentation

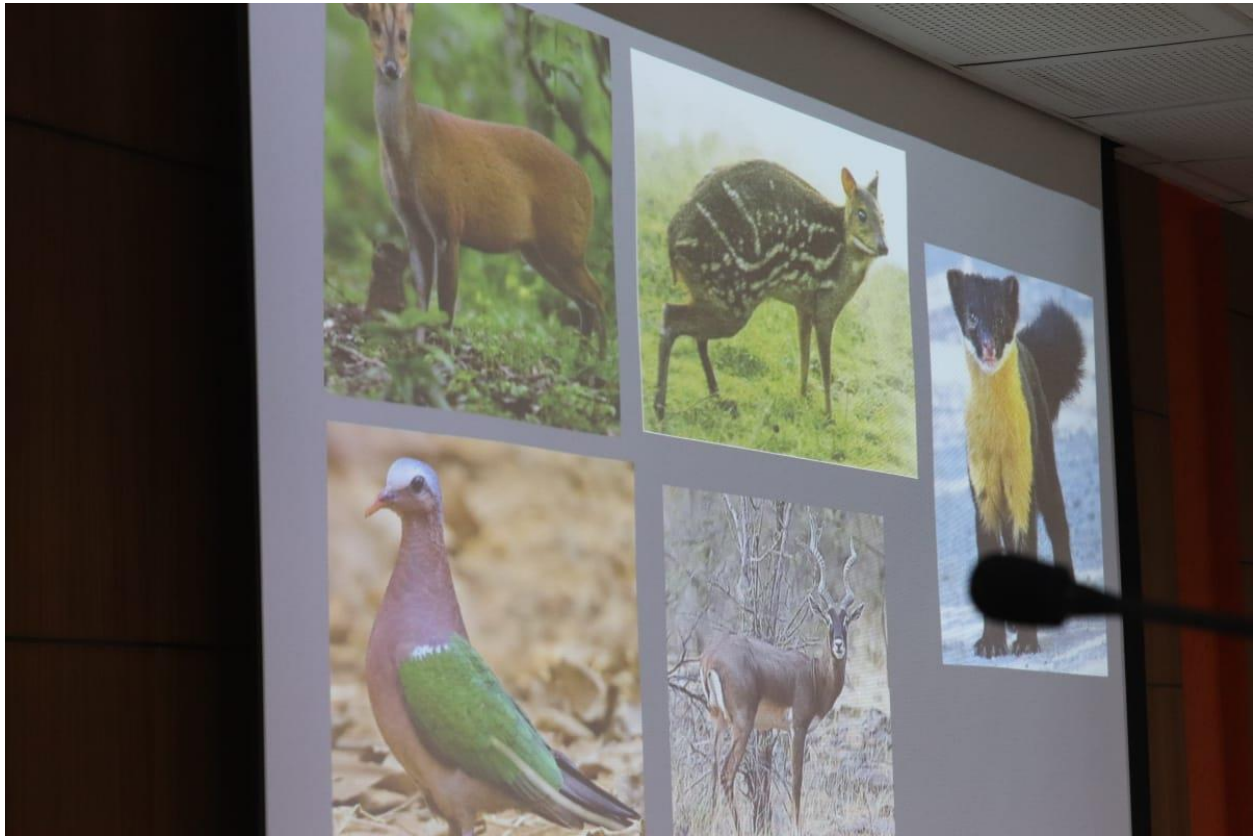

Hall packed to its full capacity and students and Programme officers sitting on the floor, with full concentration

Students enjoying the sense of humour in the presentation

Faculty and Students learning about the environment and the necessity to conserve it for the future generations

Typical local Indian bird and animals that the present day students could not even name

The talk ended with a reminder of the awareness and the gravity of the problem of Environmental conservation and the possible solutions that can help mankind in preserving the environment for the benefit of our universe.
